Silk Lighting Maintenance: All Lampshades in the Silk Lighting Collections are made of hand dyed, treated crushed silk that is resistant to mold and fire. The silk is sculpted over a metal structure. For optimal maintenance, vacuum the silk frequently and avoid direct sunlight or smoke. To remove stains use upholstery foam cleaner. (As these vary depending on manufacturer, testing the product on a hidden spot is recommended)

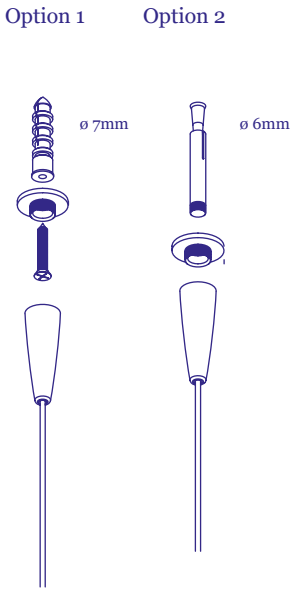

- 1
- Open accessory box out the stainless steal wire.

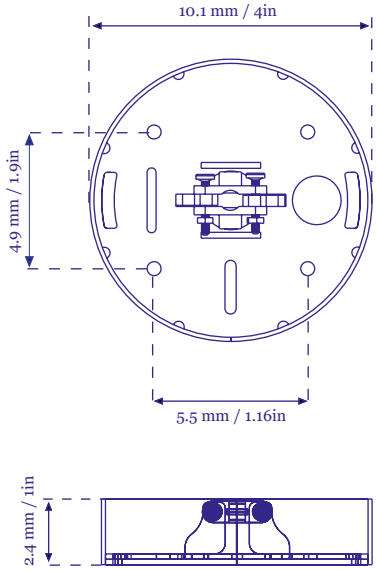

- 2
- Mark four points on ceiling as shown and drill a hole according to the size in step six.

- 3
- Drive four spplied Reutlinger Hanger into the ceiling.

- 4
- Terminal box cover (J Box) measurments.

- 5 Thread electrical wire through the terminal box cover and connect it to the ceiling / J Box with the two supplied screws.

- 6 Lift the top shade and install four T5 bulb. Close the top shade when done.

- 7 Lift the Rotini the four wires and thread it as shown. Note: Height can be adjusted after hanging; lift the shade a little to reduce pressure from the suspension stopper at the bottom of the cable to the desired height.
