### **Element**

Hand woven

65% pure New Zealand wool, 25% new wool, 10% viscose

Custom sizes to a maximum of 400 cm × 1000 cm

## **Element**

Entirely handwoven, *Element* reflects the fresh, geometric style of design duo Scholten & Baijings. Intrigued by the incorporation of yarns with different textures, the designers spent time studying materials, colours and bindings, while searching at length for a construction that would allow the various material characteristics to emerge. The end result brings both a refined, bold, and contemporary touch to any space.

*Element* combines a specially developed woollen felt yarn in light or dark neutral shades with brightly coloured viscose yarns.

The interplay of the voluminous, matte wool with subtly shimmering viscose threads offers an elegant expression and an inviting, tactile surface.

Worked out in signature detail by the designers, *Element's* palette achieves depth of colour through unexpected combinations while contrasting viscose borders a single edge for added distinction.
